

ADVANCED FUNDRAISING ACCOUNTS

What is an Advanced Fundraising Account?

An Advanced Fundraising Account is one where you already have a website that you intend on keeping, and you just want to add the ability to take credit card donations online. It's the next step above our regular Fundraising Accounts, and allows you even more control over your donation page!

How It Works:

Set up an account online with Donor Town Square for no charge. Link to it from your website using one of our suggested icons or a donation landing page of your own creation. Donors click on that icon and then are sent to a secure donation page where they can contribute to your organization.

How do I get my donations?

Donor Town Square charges a transaction fee for each donation made through your page. If you supply us with your bank account information, we will make a direct deposit that will appear in your account each Thursday for the sum of all donations from the previous week. This is a feature that we do not offer to our regular Fundraising Accounts, and it lets you get your donations even easier! Or if you prefer, we will put a check in the mail each Monday just like we do for our regular accounts.

Additional features of an Advanced Fundraising Account:

- Complete control of all HTML around the donation form
- Direct Deposit of donations once a week
- Ability to send emails to your list
- All for a low monthly fee and setup fee, and with lower transaction rates!

Plus, you still get:

- Same Secure Donation Process
- Your supporters are not required to setup any accounts with us in order to donate to you, and we will never spam your donors or sell their information.
- Easily download your supporters' information in Excel so that you can add them to your mailing list or thank them for their donation.
- We handle all customer service requests from your donors
- Automatically process monthly pledges online!
- Add in custom fields, designated fund options, and more!
